

# Mc Donalds

Thanks for purchasing one of my kits,  
This kit just requires glue and a brown  
felt tip pen.

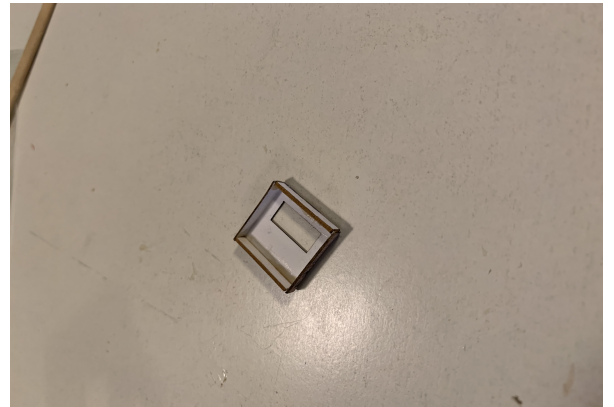

Gently fold the creases of the red brick  
sections and colour the corners  
with the felt tip pen..

Fold the glue flaps ( One on each end  
of the red brick sections) and glue the  
walls together so you have the square  
building structure.

Cut and glue the windows in place, Put them in place before you glue them  
just so you make sure they are the right way around.

Now assemble the serving hatches, Gently  
fold on the score lines and and glue two  
of the plain grey pieces together do this  
three times so you will end up with three  
singles and three doubles, glue the single  
at the top and the double at the bottom  
then the brown piece glues on top of the  
double which completes the serving  
hatch. (The bottom is where the window  
is lowest)

Now glue the serving hatches in place, they will only fit over the lower  
windows.

Now you can glue the roof window from the underneath and glue the roof  
on to the main structure using the flaps, Once dry glue the Mcdonald  
signs on and the yellow "M" in place and the posters.
