

Market stall and cart

Thanks for purchasing one of my kits,
This kit just requires glue.

Fold the Canopys on the crease then glue the two ends to the canopy roughly the same distance from the sides. Once dry cut out the small items for sale and glue on the shelves, Then glue the shelves on to the ends.

Glue the 4 wheels to the underside of the cart then glue the tow brace, Once dry glue the two roof supports at each end and glue the canopy on.
